# 1. Machine translation

**Machine Translation + You = Better growth of Translation**

The translation process that enhances quality and speed with machine translation + post-editing

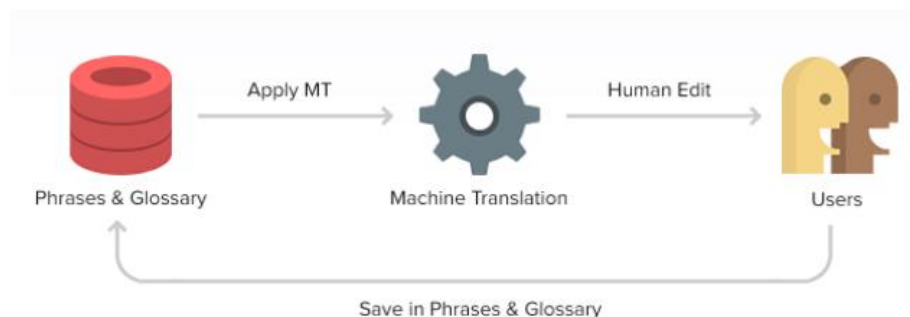

## How it works

---

The document is automatically translated based on the Phrases and Glossary registered by the user.

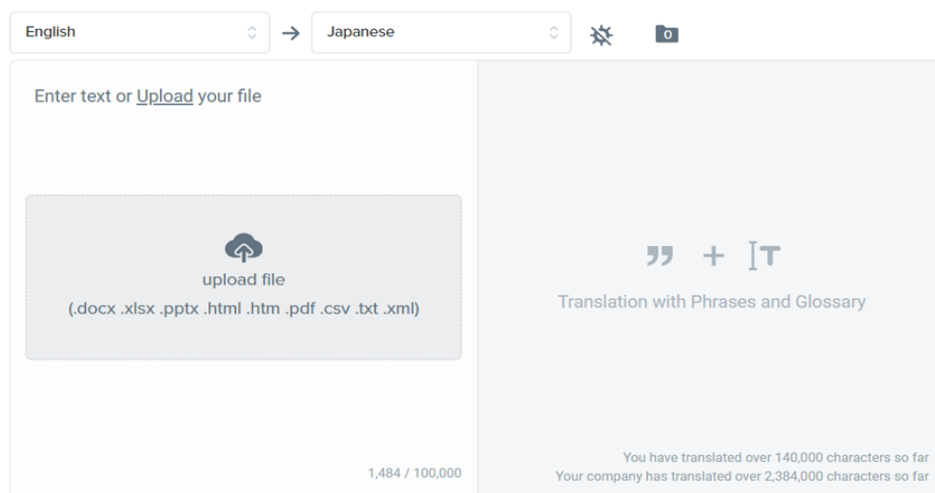

The results from machine translation are edited by the user afterward to add more Phrases and Glossary terms, which will be utilized for the translation process next time.

The more you use it, the more it learns,  
and you can expect translation results that suit your needs and wants.

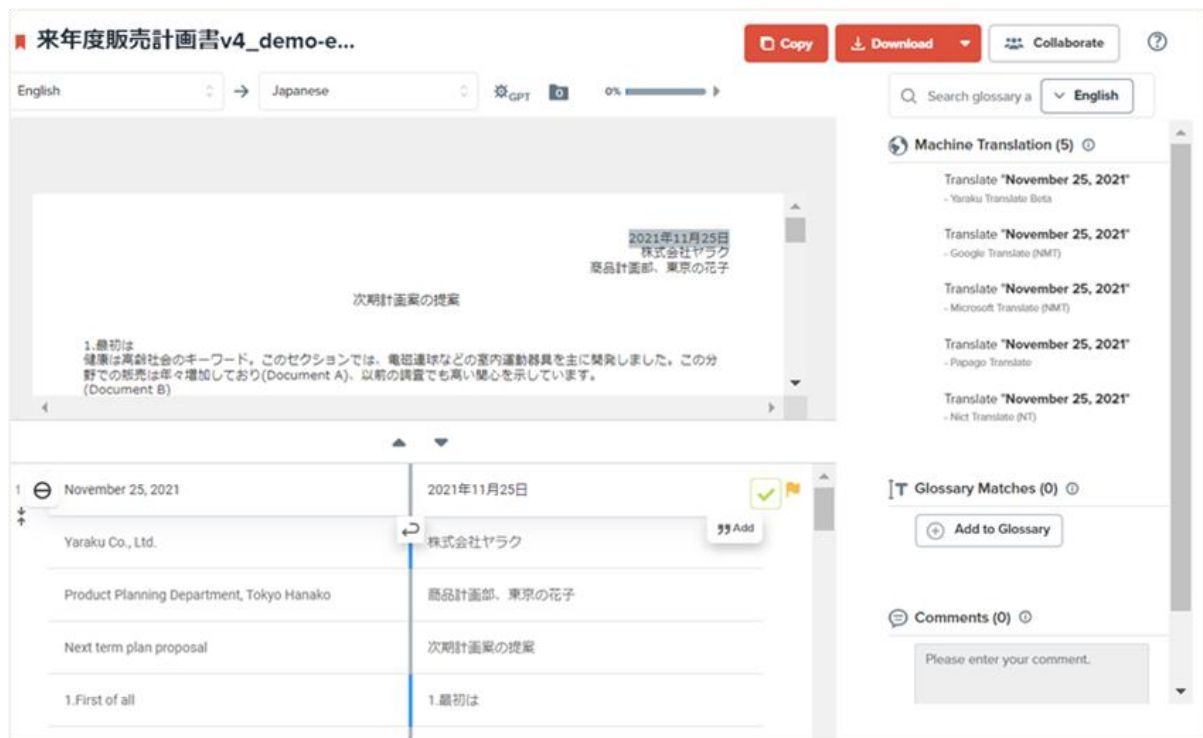

## ① Start page: Drag-and-drop the file you want to translate to start

---

Drop the file you want to translate in the gray area and select the languages to start translation.  
The app will analyze each sentence and generate the optimal translation.

## ② Edit page: Edit the results -> Download in the same format as original

Edit the texts generated by machine translation. You can download the translated document in the original layout as it is. There are two ways to edit: edit by yourself, share to other users.

**Edit by yourself** - Edit the results from machine translation while referring to the example sentences and dictionaries that appear in the right-side panel.

**Share with someone and ask them to edit it** - You can share the translated document with someone who is good at foreign languages and have them edit it.

### Growth model

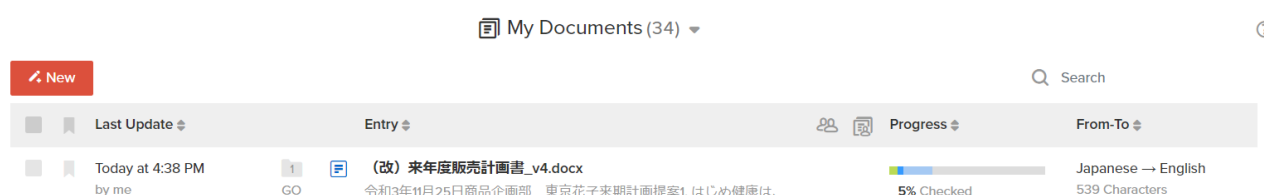

The system grows with each Company Account.

When Translation Manager edits and adds a segment, the sentence is automatically added in the Company Phrases and used for machine learning of the machine translation engine. The unique engine generated by machine learning will be available to all Regular Members. Therefore, the more you use it, the more the translation engine will grow, and the productivity of the entire company will increase.

### ③ Documents list: Check the translation progress at a glance

---

My Documents (34)					?
New					Search
Last Update	Entry	Progress	From-To		
Today at 4:38 PM by me	GO (改) 来年度販売計画書_v4.docx 令和3年11月25日商品企画部 東京花子来期計画提案1. はじめ健康は、	5% Checked	Japanese → English		539 Characters

Sentences that translated in the past can be centrally managed on the Documents Page. There are two types of Documents.

Company Documents allows you to create translation templates for frequently used documents and share them with everyone.

#### My Documents

The Documents you have translated so far. You can also share them with other users.

#### Company Documents

The Documents shared by the Translation Manager that can be used as an in-house template for, such as, contracts and IR materials.

#### ④ Phrases page: Add, store, and reuse the edited Phrases.

The edited and added text is stored in the Phrases and used for the translation process next time. There are two types of Phrases.

**My Phrases** - Translated text that you edited and added.

**Company Phrases** - Translated texts that Translation Manager edited and added. Will be shared with all the Regular Members and will be applied with priority over My Phrases.

#### ⑤ Glossary page: Keep consistency of terminology

You can register terms in Glossary. Add in-house terms, industry terms, and technical terms to keep consistency of terminology. The users no longer need to manage terminology by Excel files and it saves time searching for terms.

**My Glossary** - Terms that you added.

**Company Glossary** - Terms added by the Translation Manager. Shared within the Company Account and always takes priority over My Glossary.

## 2. User roles

There are three user roles: Regular Members, Translation Manager, and Company Admin.  
The differences of permissions for each role are as follows.

### 1. Regular Members

A normal user of Company Account.

They can translate and edit documents by using My / Company Data.

### 2. Translation Manager

A bilingual (or multilingual) user who is fluent in foreign languages.

They add and edit Company Data.

### 3. Company Admin

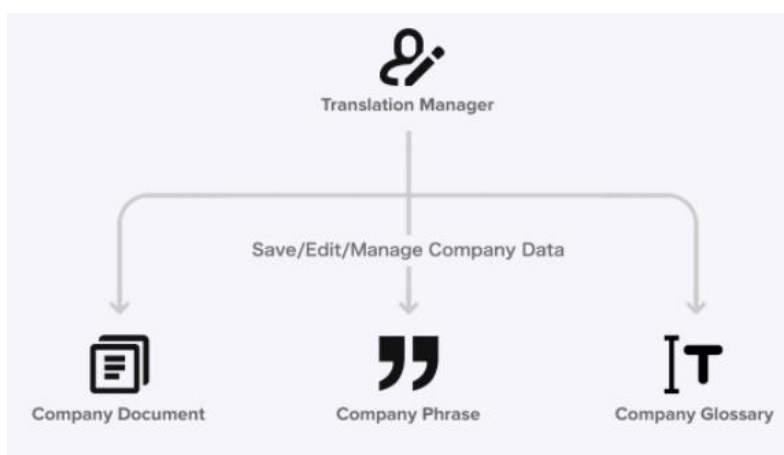

A user who manages Company Accounts.

They check the usage status, set Translation Manager, and manage Company Categories, etc.

## The role of Translation Manager

---

All Regular Members can save to Company Data if they have access to the Category.  
However, only the Translation Manager role can edit and manage the Documents/Phrases/Glossary saved to Company Data.

### 3. Sign in / sign out

#### Sign out

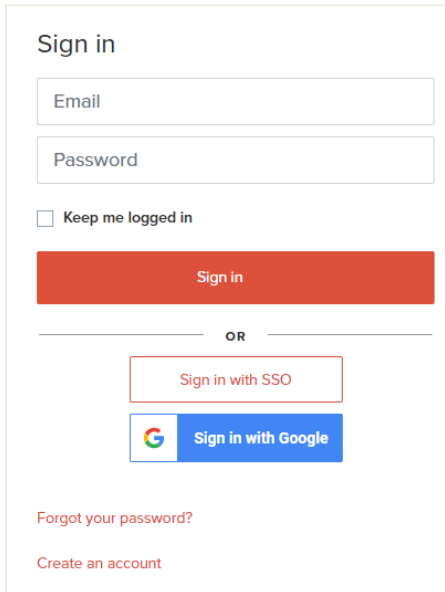

---

Click the power  icon displayed in the bottom left-hand corner of the page.

#### Sign in

---

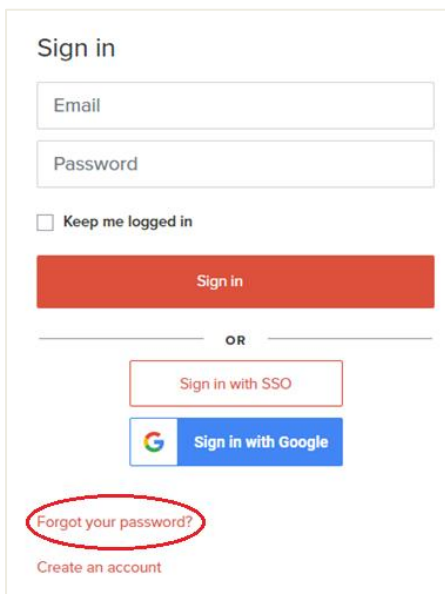

Enter your email address and password and click [Sign in]. (If "Keep me logged in" is not checked, you will be automatically logged out when you do not use the application for 2 hours. If checked, the 2 hours will be extended to 1 month. )

A sign-in form with a title "Sign in". It contains two input fields: "Email" and "Password". Below these is a checkbox labeled "Keep me logged in". A large red button labeled "Sign in" is positioned below the checkbox. A horizontal line with the text "OR" in the center separates this section from the SSO section below. The SSO section has a button labeled "Sign in with SSO" and a button with the Google logo labeled "Sign in with Google". At the bottom, there are two links: "Forgot your password?" and "Create an account".

The Company Admin can change the period of time of "keep me logged in" from the Company Settings. See the Company Admin section for more details.

#### Forgot password

---

This is the same sign-in form as described above. In this version, the link "Forgot your password?" at the bottom left is circled in red to draw attention to it.

If you forgot your password, click [Forgot your password?] on the sign in page to reissue your password. You can also contact the Company Admin and ask them to send you a password reset email.

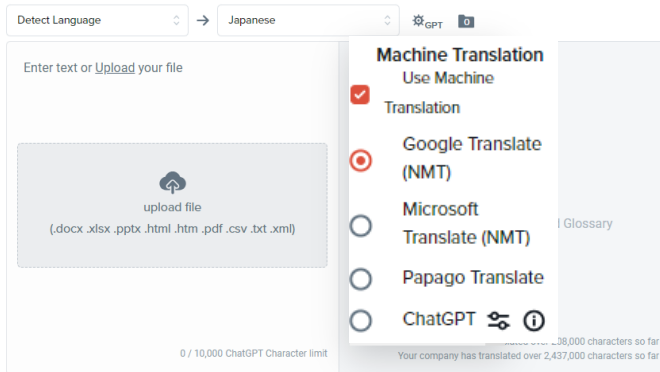

## 4. Start translation

### Machine Translation (text translation)

---

Select source/target languages and machine translation engine

It automatically detects the source language.

Enter text to get translation instantly

After you enter the source text in the left area, the translated text is automatically displayed on the right side. You can copy the translated text from the [Copy] button that appears after the translation.

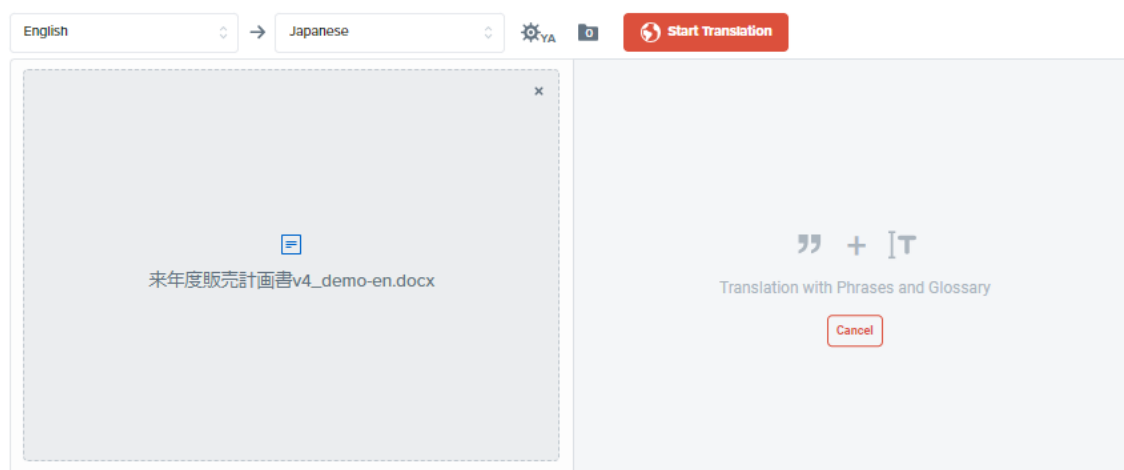

\*To start over, click on the pencil icon in the upper left corner of the page.

## Machine Translation (file translation)

### Upload

Drag and drop a file in the left area or select one from "Upload". You can enter / upload up to 100,000 characters (45MB) at a time. If you exceed the limit, please split the file, and upload them separately (the number of machine translations is unlimited).

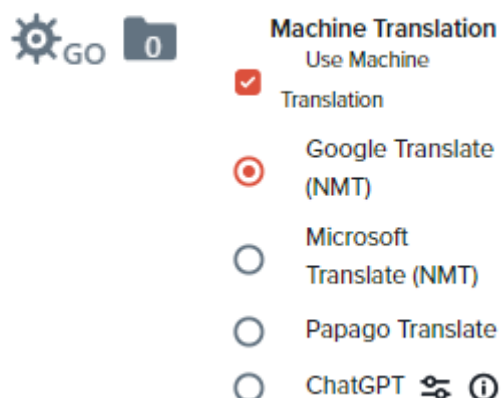

Available file formats are as follows.

.docx/.xlsx/.pptx/.html/.htm/.pdf (\*).csv/.txt/.xml

\* For PDF, only the files with text information is available. When downloading, it will be in a .docx format.

### Select machine translation engine

You can choose from Google / Microsoft / Papago / ChatGPT. You can also turn on/off the machine translation process.

The gear icon shows the alphabetical display of the currently selected engine.

- Google: GO
- Microsoft : MS
- Papago : PA
- ChatGPT : GPT

## Select the source and target languages

Japanese	→	English

## 5. Edit by yourself

Editing the translated texts faster, better, and with more fun -  
equipped with various support functions for translation.

### Post-editing

---

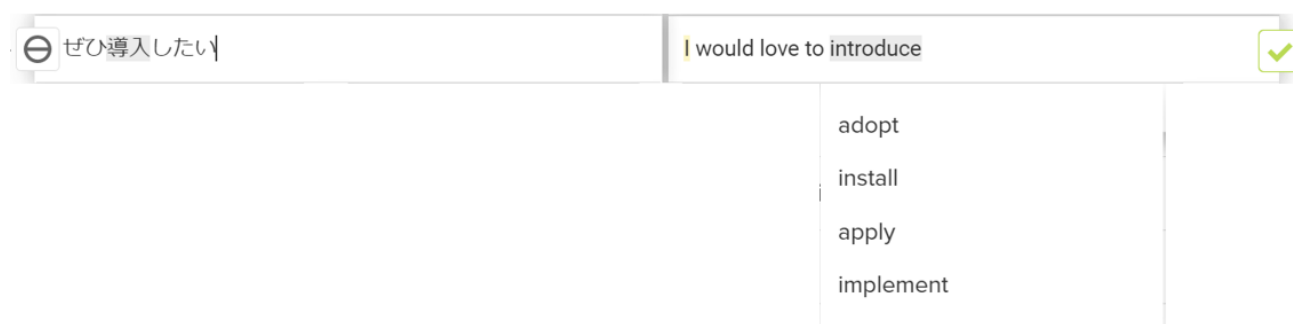

#### Word-to-word Highlighting / Smart Suggestions

- **Word-to-word Highlighting (for all languages)**

Highlights the corresponding word when mousing over the source or translated text  
(highlighted in gray).

- **Smart Suggestions (for Japanese English only)**

Click a word to display synonyms directly below.

Users can visually determine which words are paired and check for synonyms.  
These new functions will improve post-editing efficiency and help users to learn  
a foreign language while translating!

## Quality Assistant

If you don't know where to edit when post-editing, it is more likely to just download the machine translated results. Quality Assistant will give you hints for post-editing. Mistakes in numbers and pronouns, where machine translation engines are likely to make mistakes, are recognized and highlighted by AI, making it easier for anyone to correct the errors.

### Translation Status/Quality Assistant/Search & Replace

Next term plan proposal

Product Planning Department Hanako Tokyo

#### 2. Introduction

Health is a keyword in an aging society. In this section, we have mainly developed indoor sports equipment such as "electromagnetic balls". Sales in this field are increasing year by year (Document A). A high level of interest was also shown in the survey conducted earlier. (Material B)

HEALTH is the "keyword" of an aging society.

Our company is widely recognized as a medical device manufacturer. Based on this, I would like to propose the development of a new exercise equipment that applies the specialized microcurrent.

**Preview will be updated on time as the source text is edited. Press Enter or click on the update icon between the source and target segments to update the translation.**

**Switch Views:** Display only one of the views between Preview and Parallel view.

#### Non-translate

Click on the icon to lock the segment, and to copy the source text to target segment.

#### Check/Flag the segment

You can check edited segments or flag segments you want to review later.

11 ② 我が社は、医療機器メーカーとして広く認知されている。

Our company is widely recognized as a medical device manufacturer.

**Segment number:** Click to show / hide

**Back Translation:** Back-translate the edited translation.

### Check Status

The percentage shows the number of checked segments. As the segment is marked as “checked,” the percentage increases and the color of the bar changes from blue to green. You can check all the segments at once by clicking [Check All Segments] in the Translation Status bar.

The check function can be used as a mark to indicate that the added segment has been double-checked to avoid mistakes, or as a check button on a shared document to see if the other party has done checking.

## Phrase Match Status

The bar will be showed in blue when the segment is added to Phrases.

You can add all the segments to Phrases at once by clicking [Add All to Phrases].

### Blue: Exact match

Segment with an exact match between the source text and the Phrases; the matched phrase from the Phrases is applied as is.

### Light blue: Partial match

A segment with a partial match between the source text and the Phrase by 50% or more (less than 100%). Personalized translations and machine translations are applied. partially matched Phrases are displayed in the right-side panel for reference.

### Gray: No match

The source text matches the segment by less than 50 %. Personalized translations and machine translations are applied.

For partially matched phrases, you can check which / how much the Phrase matches in the "Phrase Matches" section in the right-side panel. You can post-edit while referring to similar sentences.

## 9. My Phrases and My Glossary

### Refer to My Phrases

The sentences you edit and add to Phrases will be saved in My Phrases. Check My Phrases from the Phrases icon on the left menu. Phrases are used for machine translation, and you cannot see My phrases of other users. Completely matched phrases are applied as they are, and partially matched (50% - 100%) Phrases are displayed in the right-side panel.

### Import My Phrases

You can add multiple phrases at once to My Phrases using [Phrase Bulk Management]. (File formats: TMX and CSV)

Select the source and target language in [Import Phrases] tab and import the file from [Add file].

\* You can refer to the sample format of the file from "[Supported formats](#)". You can check the language codes in "[Supported languages](#)" section.

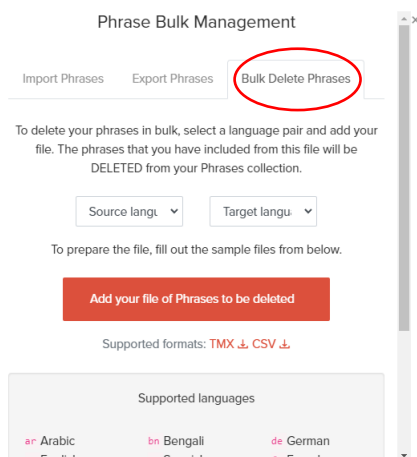

### Export My Phrases

You can download all your My Phrases at once. (File formats: TMX and CSV)

From the [Export Phrases] tab, select the source and target language, filter items if necessary, and click [Export CSV] or [Export TMX] to export.

## Bulk delete My Phrases

You can delete multiple Phrases at once by file import.

From the [Bulk Delete Phrases] tab, select the [Source language] and the [Target language]. Upload a CSV (or TMX) file with the Phrases to be deleted, using the [Add your file of Phrases to be deleted] button. If you need help making the file, you can download the sample files (TMX/CSV) from "Supported formats" and use it as a template.

## Refer to / add My Glossary

You can check the list of My Glossary from the Glossary icon in the left menu. Languages can be set with the [Languages] button. You can add terms in any language pair. Bulk import is also available (File formats: TBX and CSV).

**\*Unlike Phrases, Glossary is forcibly applied automatically without considering the context.**

**\*My Glossary only affects the machine translations you do in your account.**

## Import My Glossary

---

From [Import/Export] icon at the right top, you can add My Phrases all at once (File formats: TBX and CSV). Upload the file from [Add file].

\* You can refer to the sample format of the file from "[Supported formats](#)". You can check the language codes in "[Supported languages](#)" section.

## Export My Glossary

---

Click [Import/Export] icon at the top right, open [Export Glossary] tab and export CSV or TBX file.

## 10. Settings

You can customize settings as needed.

<b>My Account</b> <u><b>Settings</b></u>	Full name	If you want to change the name or email address, click [Update] at the end to save.
	Email	
	Password	<p>Change the password with [Change] button. 	Account – Deactivate	Disable your account. Please note that you cannot re-enable the account by yourself.

## Machine translation

### Settings

#### **Turn on/off machine translation process**

**If you want to translate from scratch on the edit page without using machine translation, uncheck "Use Machine Translation" (You can also select whether to use it from the gear icon on the start page).**

#### **Setting of the category priority**

**You can set the priority of the categories to be applied during machine translation process. Visit Settings page and click [Settings] under "Machine Translation." Drag in order of priority (the first is applied with the highest priority).**

##### Machine Translation Settings

Use Machine Translation ☒

##### Category Priority

You can set the priority of Categories for translation results. Drag to sort the categories in order.

Category	Description
Category A	
Category B	
Category C	
General	

**If you have multiple translation options for a single term, you can deal with them using the category function. Normally, multiple translations cannot be saved for a single term, but if you use a different Company Category, you can save the different translation for the already added term.**

**(Glossary terms are saved in both direction of source-to-original and original-to-source. Phrases are saved in only one direction.)**

## 11. If you are in trouble

### Help

---

Help (?) is in the upper right corner of each page. Please refer to it when you want more information about each function.

#### News page

You can visit our Help page from the News Page on the start page. User guide and update information can be accessed.
